

	QUALITY MANAGEMENT SYSTEM	
IRAUNDI POLICY	Date:	25th/sept/24
	Page 1 de 1	

Since 1972, IRAUNDI S.A., has been dedicated to the design and manufacture of special ball bearings at its facilities in Bergara. Our mission is to be an undisputed leader in our market segment in terms of Quality, Price, Service, and Environmental Protection. To achieve this, we strive to maintain the trust of our customers, suppliers, and employees, with a commitment to meet their expectations regarding our products and services while continuously working to prevent environmental pollution.

To maintain this trust, we focus on the following key aspects:

- Identify and meet the needs of our stakeholders, with particular attention to customers, employees, partners, and the company's social environment.
- Implement and promote the Quality and Environmental Management Systems at all organizational levels, with a commitment to comply with all legal and other applicable requirements relevant to our activities.
- Promote sustainable development by minimizing the environmental impact of our operations.
- Respect for all individuals within the company, embracing diversity.

The success of the described Quality and Environmental Policy depends primarily on the people who comprise IRAUNDI. Therefore, the General Management is committed to ongoing training and fostering continuous integration between employees and the company, while strictly adhering to our equality plan.

This policy applies to the entire organization and is disseminated, implemented, and continuously maintained at all levels.

GENERAL MANAGER
