LIFTING EQUIPMENT

BEARINGS, 50 YEARS OF SPECIALITY

Iraundi, for the past 50 years, has been designing and manufacturing special bearings with a specific aim to accommodate the needs of our customers.

Our workforce comprising of a team of more than 100 professionals and sharing knowledge with a clear customer orientation.

Our bearings are made of steel, chrome-molydenum, steel alloyds, stainless steel and more materials on demand.

For the production of bearings and special slewing bearings, we have three spacious and modern production plants which combine our production processes enabling us to satisfy the most exacting demands.

WE ARE CURRENTLY PRESENT IN 5 CONTINENTS SUPPLYING TO LEADERS OF LIFTING EQUIPMENT.

INNOVATIVE TRADITION

The passion for innovation and the continuous development of our products has been our priority and fundamental objective throughout our history, which is why we have our own R&D+innovation department which always provides the most innovative solutions.

In addition Iraundi has strategic alliances with prestigious training and research centres.

We have a specialised group dedicated to providing effective solutions to meet each customer's needs. The flexibility and adaptability of our organisation, as well as the characteristics of our production system, enable us to take on the most ambitious projects in shorter periods of time.

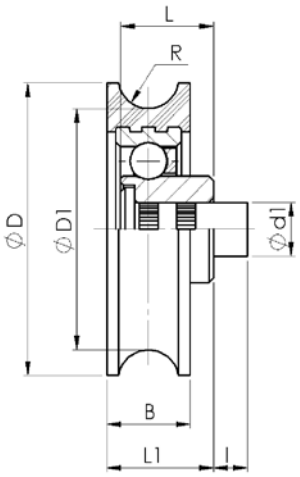

We realize the importance of the Environment and therefore, operate under the strictest international legal standards.

Iraundi is leader in highly-engineered special bearings for the lift industry providing innovative bearings solutions for elevator manufactures all over the world since 1972.
